Portfolio

Frontend-focused Full Stack Engineer with **8+ years of experience** building production-grade web applications using **JavaScript, TypeScript, and Vue.js**. Experienced in developing scalable frontend architectures and integrating backend services using Node.js and modern frameworks like Next.js.

SKILLS

Frontend: JavaScript (ES6+), TypeScript, Vue.js (Vue 2 & 3), Pinia, Vuex, HTML5, CSS3, Tailwind CSS, SCSS, React, Redux

Backend: Node.js (Express), Next.js (SSR, API routes), Java (Spring MVC), MySQL

APIs: REST APIs, Axios, Web Services

Tooling & Performance: Git, Jira, Confluence, AI-assisted development (Cursor), Lazy Loading, Code Splitting, Memory Profiling, Efficient Resource Loading

PROFESSIONAL EXPERIENCE

Senior Software Engineer / Tech9 – Chennai, TN (Remote)

Aug 2025 – Present

Referral Reactor App

- Modernized the front end of an existing **B2B contractor referral platform** by redesigning legacy UI into a **Vue 3-based, scalable**, production-ready application aligned with evolving business requirements.
- Built and refined **contractor and homeowner workflows** for **trusted professional referrals**, improving usability, discoverability, and overall platform adoption.
- Refactored and optimized the **front-end codebase** to improve **performance, maintainability, and development velocity**, leveraging **AI-assisted development workflows** for faster iteration on a live system.
- Built and integrated **Node.js (Express) APIs** for backend integrations and async data handling. Worked with **Next.js (SSR, API routes)** to improve performance and streamline frontend-backend integration, reducing dependency on external services.

Senior Frontend Engineer / Capgemini – Chennai, TN

Nov 2021 – Aug 2025

Engage GUI App – Netgear Device Manager

- Independently migrated legacy systems from **Vue 2 to Vue 3**, improving application performance by **30%** and streamlining future development using the Composition API and **Pinia** for state management.
- Built a **Windows-based device management application** using Vue.js and TypeScript to manage Netgear devices (APs, routers, M4250–M4500 series), supporting firmware upgrades, topology visualization, and network configuration.
- Enabled **real-time device monitoring and remote configuration**, simplifying lab operations and significantly improving operational efficiency.

Support Center App – HDFC Bank (via Zeta)

- Led development of a **support portal** for HDFC Bank using **Vue.js, SCSS, and TypeScript**, enabling visualization of user transactions, cards, VPAs, and tokens.
- Implemented **localization and currency handling** across regions, and optimized backend interactions through efficient **API design**.
- Built reusable, **framework-independent components** with **module federation** and **role-based API sandboxing**, enabling a scalable **micro-frontend architecture**.

Software Developer / Accenture – Hyderabad, Telangana

July 2019 – Oct 2021

- Developed **internal web applications and browser extensions** using **JavaScript** and **jQuery**, contributing to improved internal tooling and automation.
- Utilized **reverse engineering** and advanced **debugging techniques** to analyze and enhance legacy systems.
- Investigated **potentially harmful Chrome extensions**, uncovering malware, spam, and obfuscated malicious behavior, and designed tools to **detect and mitigate security threats** in the browser ecosystem.

Full Stack Developer / Realcom Infocom Pvt Ltd – Hyderabad

Aug 2017 – July 2019

- Built an **E-commerce platform** using **PHP, CodeIgniter**, and **phpMyAdmin** on **Apache**, covering authentication, product flow, and cart management.
- Designed UI for a **Car Accessories web app** using **HTML, CSS, Bootstrap**; configured **SSL**, managed **VPS hosting**, and integrated **Razorpay**.
- Led development of **Earn Kubera**, a browser-based **lottery game**, using **Java, Spring MVC, MySQL, jQuery**, and **JavaScript**, while guiding junior developers on implementation and releases.

EDUCATION

BE (CSE) - Anna University College of Engineering, Ramanathapuram, TN
